

# **NY-NJ Harbor Estuary Final Comprehensive Conservation and Management Plan - CCMP**

## **Restoration Plan Database: Crystal Reports of Individual Plan Summaries**

### **I. BASIC PLAN DATA**

**Plan name:**

NY-NJ Harbor Estuary Final Comprehensive Conservation and Management Plan - CCMP

**Brief description of plan:**

The CCMP is a comprehensive plan for the Harbor/Bight watershed on a regional scale. Five primary causes of concern are identified and presented as a section of the plan, including habitat loss. The plan also identifies public involvement and education strategies and other activities associated with implementation of the plan.

**Region the plan is located within:**

Mid-Atlantic Region

**Watershed(s) included within the plan:**

M060x

**Area plan covers (in square miles):**

square miles

**Plan scale:**

Multi-state

**Plan's lead organization(s):**

NY/NJ Harbor Estuary Program

**Plan's Main Contact Information:**

No Information Provided

**On-line version of plan:**

**Date of original plan:**

3/1996

**II. TECHNICAL INFORMATION**

**Plan includes restoration goals:** Y

**Level of detail of the goals:**

G

**Summary of the goals:**

1) Restore and maintain an ecosystem that supports an optimum diversity of living resources on a sustained basis. 2) Preserve and restore ecologically important habitat and open space.

**Plan recommends restoration of specific project sites:**

N

**Plan includes a discussion of funding sources:**

Y

**Plan addresses long-term protection of restored sites:**

Y

**Partners included in developing the plan:**

Federal  
State  
Local  
Private landowners

**Type(s) of public outreach included during plan development:**

Held public workshops, meetings, open house, or scoping meetings  
Mailed or e-mailed information to a contact list  
Distributed brochures or other materials  
Was subject to a public comment period

**Plan includes public outreach as part of plan implementation (e.g. annual public meeting, local group participation):**

Y

**Plan discusses the application of innovative approaches to restoration:**

N

**Plan make use of GIS mapping capabilities:**

N

**Plan addresses monitoring/reference sites for ecosystem level monitoring (baseline conditions) by:**

S

**Plan addresses monitoring/reference sites for project level monitoring by:**

N

**The plan discusses or coordinates with other restoration plans covering the same geographic area:**

N

**Other plan names:**

**Plan contains detailed information on historic and/or current habitat size, rate of loss, acres restored or protected, etc.):**

Y

**Summary of this habitat information:**

Coastal wetlands in the Harbor/Bight region, including salt and fresh tidal marshes, now cover about 180,000 acres in NJ and about 25,000 acres in NY. At least 75% of historic tidal wetlands in each of NYC's five boroughs has been lost.
